READY IN AUTUMN, 1932 AND SPRING, 1933

### Preferred Dozen

Etoile de Hollande

Pres. Herbert Hoover

Roslyn

E. G. Hill

The 12 Roses pictured on this page constitute the most attractive collection we have ever offered. These Roses represent the entire range of Rose colors and have definite qualities of vigor, health, and floriferousness to commend them.

The best judgment of our entire Research Department and the experience of many years in growing countless thousands of Roses have been devoted to selecting the all-around Roses for the J. & P. Preferred Dozen for 1932-33.

The Jackson & Perkins Rose and Perennial Test Garden, started in the spring of 1930, contains five plants each of standard commercial varieties and several hundred undisseminated seedlings from our own Research Department and from European hybridizers. These kinds are being grown under actual garden conditions. We are testing a great many new seedlings from some 29 European Rose-growers with whom we have contracts. New varieties of perennials are also under observation. This photograph was taken July 15, 1932. The trade and the public are cordially invited to visit this garden.

## Jackson & Perkins Novelties For 1932-33

ACH year, Roses become more important in the nursery trade. Popular knowledge of Roses has increased steadily to the point where the older varieties no longer dominate the field. Articles in magazines and books, and the numerous Rose lecturers have taught the Rose-buying public that the most intense form of Rose-pleasure is to be found in growing new varieties.

The cultivation of novelties has become a sort of sport, a "chase" for different and better things. Gardeners delight in putting their skill against new things; they are happily satisfied if only a small portion of their adventures result in the discovery of a variety of enduring merit. The thrill is in the chase, not in the kill. Everyone is happy if he gets a good run for his money.

Nurserymen must cater to this urge for new varieties, and they must also see to it that they let no slow horses into the race. That is why we have equipped ourselves with a painstaking Research Department, whose business it is to find new Roses which will give the purchaser the best value.

Here we offer a superlative list of new Roses which have come into commerce in the past year or two. Not all of them are perfect—nobody expects that—but they all have points of interest, and several of them are so distinct and worthy that we are sure they will find a permanent place in the Rose-gardens of the future.

# Jackson & Perkins Introductions Five plants of a variety at the 10 rate

AMBASSADOR. HT. Salmon-pink sport of Talisman with a solid orange bud without shadings. Per 10 Per 100 One of the best of the many Talisman sports..... .....\$650 per 1000..\$10 00 \$75 00

AROMA. HT. Brilliant scarlet—a color rare in roses; large, full bloom, beautifully formed, richly fragrant, hence its name. Plant vigorous, hardy. Foliage healthy.........\$650 per 1000... 75 00

BLAZE. (Everblooming Paul's Scarlet Climber). Plant Patent No. 10. Seedling of Paul's Scarlet Climber and Gruss an Teplitz. A marvelous, hardy, everblooming scarlet-red Rose, combining the bloom and growth of Paul's Scarlet Climber with the everblooming character of Teplitz. Very vigorous. Seldom out of bloom. At this writing (August 15), plants in our test-garden are covered with bloom from bottom to top. Can be pruned very low for bedding; medium for shrub use; or trained as a climber. Available in large quantities fall and .....\$800 per 1000... 12 50 100 00 spring. See front cover.....

JACKSON & PERKINS INTRODUCTIONS, continued	
CAMEO. Poly. A new and distinct color fully described by the name—shell-pink and salmon, Per with a glow of gold. Large sprays in continuous succession. A real acquisition	
COUNTESS VANDAL. HT. Patent applied for. The sensation of 1931 foreign Rose shows, where it won all the medals and trophies. Long-pointed bud of bronze, copper-salmon, and gold; open bloom large, often over 5 inches across; but not "cabbagy"; perfumed. Long stems for cutting. Plant upright and vigorous. (See back cover.) Dr. McFarland writes, August 11: "Countess Vandal keeps on and doesn't seem to know how to quit blooming. I am more in love with it every time I see it." \$800 per 1000., 12	50 100 00
DAZLA. Pern. The most dazzling color in Roses—brownish orange, evolving into orange-scarlet.  Blooms semi-single but immense. A striking bedding variety for unusual color effect  \$650 per 1000 10	
DOTTY. Pern.H. Coloring of the bud strongly reminds of Rev. F. Page-Roberts, while the bronze tint remains in the open bloom. A splendid grower with glossy foliage. Unusually healthy for the type	
EDITH KRAUSE. HT. Probably the most beautiful white Rose in existence. Very large white bud with a greenish tint, opening to a majestic, perfumed bloom of pure white. Long, strong stems for cutting. Unusually hardy	00 75 00
	00 50 00
GOLDEN SALMON SUPERIOR. Poly. An improvement on Golden Salmon. The color is more lasting in the sun	00 50 00
Hybrid Perpetual. Very double and extremely fragrant; white, with a flesh tint in center.  Always in bloom	00 50 00
	00 50 00
LILIAN. HT. Large, double blooms of good form; Marechal-Niel-yellow; delicately perfumed. Plant is divergent and makes an ideal bedding Rose	50 100 00
consider it one of the best acquisitions of recent years. Long stems for cutting. Handsome, strong foliage\$800 per 100010	00 80 00
MARY HART. HT. Plant Patent No. 8. A most unique sport of Talisman. Bud is maroon-red, opening to large, well-formed blooms of deep, velvety blood-red, with an overglow of amber, but the most remarkable feature is the total absence of yellow. A tremendous producer. Spring delivery only. Available in potted and dormant plants	50 100 00
MAX KRAUSE. HT. Probably the most yellow Rose of the year for outdoor use—a gold that stays gold. Long bud and cup-formed bloom of great substance freely borne on a long stem. Foliage leathery and unusually resistant to Rose troubles. Available in potted and dormant plants\$800 per 1000. 12	50 100 00
PARIS. Poly. Immense trusses of bright red pompons, almost unfading. Very showy in borders	00 50 00
PROF. EMILE PERROT. Perfume Damask. A selected strain of the Old Damask Rose now extensively used to produce attar of rose. Large; semi-double pink\$650 per 1000 10  RED ECHO. Poly. A brilliant red dwarf Tausendschön. Continuous bloomer. Most effective	00 75 00
	00 50 00
Outer petals are splashed with scarlet and carmine. A very prolific bloomer	00 50 00 00 50 00
SAN JOSE. H.Pern. Selected by the City of San Jose for its "fiesta" colors—orange-red and gold. Very large flower on rigid stem. Extremely vigorous plant with glossy, deep green foliage 12	50 100 00
SOUVENIR. HT. Plant Patent No. 25. A golden Talisman of great beauty, with all the qualities of Talisman from which it sported. Best of its many yellow sports.  \$650 per 100010	00 75 00
SPARKLER. Poly. Brilliant sparkling red, very little affected by outdoor weather. Plant medium size, of even growth, splendid for pot-culture	00 50 00
with large, glossy foliage. Splendid as specimen bush, in the border, as a climber on a fence or	00 50 00
Other Novelties for 1932-1933	
Five plants of a variety at the 10 rate	
ALLEN'S FRAGRANT PILLAR. Cl.HT. Large, full, fragrant, satiny pink bloom. Blooms throughout the season. Hardy. We consider it an improved Mme. Grégoire Staechelin.Per Does not mildew	10 Per 100 00 \$75 00
APELES MESTRES. Cl.HT. A mammoth Souv. de Claudius Pernet and of the same deep yellow, lasting an unusually long time. Handsome pillar Rose\$650 per 1000 10	00 75 00
	00 50 00
BARBARA RICHARDS. HT. Flower large, full, well formed, very fragrant, corn-yellow and buff, flushed pink. Very handsome Rose on a healthy plant	00 75 00
BELGICA. HT. An improved American Beauty with same form and perfume but more crimson without objectionable magenta tint. A continuous producer. Long stems for cutting 6	00 50 00

#### OTHER NOVELTIES FOR 1932-1933, continued CALEDONIA. HT. Long-pointed pure white bud on long stem for cutting; large, full, fragrant Per 10 Per 100 bloom. Healthy, vigorous plant..... \$6 00 \$50 00 DAILY MAIL SCENTED ROSE. HT. Dark, velvety crimson. Won the coveted Daily Mail prize for unusual perfume. 40 00 DAYDREAM. Australian Climber. Large, semi-single flowers of a dainty rose-pink. Fairly continuous in bloom. Vigorous plant. 6 00 50 00 DR. ECKENER. H.Rug. A semi-climber of Conrad F. Meyer type of growth and foliage. ### Hardy Perennial Plants

We are offering here a general practical list of transplanted, field-grown, strongly rooted perennials. In our Perennial Research Department we are developing carefully selected, superior strains of many varieties—growing from a few specimens only enough seed for our own needs—thus assuring strains on which you can absolutely depend for uniformity and of which we are justly proud.

Strong transplanted stock from the open field. One season older than much of the stock frequently offered. Varieties marked with an (r) are for rock-gardens. Varieties marked with a (c) are excellent for cut-flowers.

Ageratum. Sweet Yarrow. Good yel-	10	Per	100	c ANTHEMIS tinctoria. Golden Mar-Per 10 Per 100 guerite. Golden yellow; fine for cut-
low, sweet-scented flowers. 12–18 in. Dwarf	80	\$6	00	flowers. 2 ft
Large, double, white flowers. Fine for cutting. June to August. 1-2 ft. c Ptarmica, The Pearl. Pure white	80	6	00	lent for cut-flowers
blossoms all summer. Very dependable for cut-flowers. July to October.				BREEZE HILL. Especially noted for wide range of color, the length and

## Evergreens for Lining Out

Young, thrifty stock grown with experienced skill and backed by the resources of one of the largest nurseries in the world.

These are really specimen trees in miniature, with full, bushy tops, and abundant, vigorous roots.

For best results we recommend fall planting. T, indicates once transplanted; TT, twice transplanted; TTT, three times transplanted; S, seedlings.

Prices on 2-year seedlings of all varieties on request.

Standard Apples at Newark. A block of 2-year budded trees

Fruit Department

These trees were especially grown for specimens—planted far apart in the rows and root-pruned last year. They were produced to take care of an increasing demand for FRUITING AGE TREES. Special 5-year specimens, 1 in. and up

Taxus capitata at the left; Taxus cuspidata at the right

## Terms and Conditions of Sale

This list cancels all previous quotations. All agreements and contracts are made subject to crop losses through unavoidable causes.

**THE PRICES** in this list are based upon present market conditions and are subject to change without notice. We invite correspondence with prospective buyers, and shall be pleased to quote special prices on want-lists for larger quantities than are named herein. On the other hand, these are **wholesale prices** and apply only to **wholesale quantities**; in no case will we fill retail orders, even from nurserymen. All orders should be made up for 10's or multiples of 10.

**TERMS.** The usual terms are offered to those of established credit or whose responsibility is known to us. Cash, security, or satisfactory references are required from unknown parties. All bills are due in sixty days unless other arrangements are made at the time of sale. All prices are net and not subject to any discount unless specially agreed upon. Interest charged after maturity.

**SHIPPING.** Customers are requested to give definite instructions for shipping. In the absence of special instructions we will use our own judgment, but with the distinct understanding that it is without responsibility on our part. All shipments travel at the risk and cost of the purchaser. We have the New York Central, the West Shore, and the Pennsylvania Railroads, enabling us to ship in any direction over trunk lines.

**BOXES** will be charged for at the rates noted below. These prices are somewhat reduced because we are now able to buy lumber somewhat more reasonably. However, these rates do not really cover present actual cost to us.

10 ft. 30 in. x 30 in\$3 50	10 ft. 24 in. x 24 in \$2 50	1 10 ft. 18 in. 4 18 in \$2 00
		10 ft. 14 in. x 16 in 1 75
10 ft. 26 in. x 26 in 3 25	10 ft. 20 in. x 20 in 2 25	10 ft. 12 in. x 14 in 1 50

Add 50 cents on all sizes of 12-foot boxes; decrease in same proportion for shorter boxes.

**BALES** will be charged at actual cost of the material. We make no charge for packing or for delivery to the railroad station.

**CLAIMS** for any cause must be made promptly on receipt of goods. Any stock that is not exactly as represented must be reported promptly and on authority should be returned to us immediately. We will cheerfully and without question credit back the unsatisfactory plants, or send others: but we will not entertain claims made after goods have been once accepted, or when report is not made within ten days after arrival of the stock.

LIMITED LIABILITY AND NON-WARRANTY. In the event the nursery stock, or any part of it, sold by Jackson & Perkins Company, Newark, New York, should prove to be untrue to the name under which it is sold, or prove not to be of the kind or quality of nursery stock it was sold for, or ordered for, a replacement of the stock as originally ordered, or intended to be sold, without charge therefor, or a refund of the purchase price shall be a complete and entire satisfaction for any and all liability therefor of the seller, and such replacement or a refund of the purchase price it is agreed shall be the liquidated damages and all the damages to which the purchaser shall be entitled by reason of the premises. Except for such limited liability as herein set out, the seller, Jackson & Perkins Company, gives no undertaking or warranty, expressed or implied, as to the description, quality, growth, productiveness, or any other attribute of the nursery stock sold by Jackson & Perkins Company.

**INSPECTION AND FUMIGATION.** Certificate of Inspection will be furnished with every shipment and, when required, stock will be fumigated.

SPECIAL NOTICE. Correspondents are requested to use their printed business letterheads. We do not quote prices to retail buyers nor sell to planters; we have no retail trade of our own, and sell to the trade only; in justice to our only customers, the nurserymen, florists, and dealers, we use every effort to limit the distribution of trade prices to those whom we know to be entitled to receive them. Use printed stationery, or enclose business card.

LOCATION. We are located 30 miles east of Rochester, N. Y., and cordially invite a visit and inspection of our establishment.

Newark, New York, September 1, 1932

## ← SOUVENIR A Golden Talisman

(Plant patent No. 25)

Finest of the yellow sports of Talisman, with clear yellow flowers that do not bleach in the rain or sun. The erect bush has unusual vigor and is a splendid Rose for the garden.

### MARY HART

Red Talisman

(Plant patent No. 8)

Endowed with all the good qualities of its parent, Talisman. The color is glowing maroon-red, lightening to copper-red, but is never yellowish, and there is not the least tinge of blue in any stage of the flower. A superb Rose.

(See page 2)
